**Subject: SAECS Contingencies – Revised**

---

Dear Clients,

Kindly note that the situation in the Port of Durban post the civil unrest from last week has vastly improved in the last 48 hours and as such we will no longer be discharging Durban imports ex the Maira XL 212S in Coega.

Maira XL is on her way to Durban and will discharge imports at DCT Pier 2.

Export call will be maintained at Pier 1.

Maira XL will not call Coega on her NB call due to delayed berthing in Durban.

All export cargo currently in stack in Coega for the Maira XL 212N will be loaded on board the DAL Kalahari 212S on her southbound call already. Current ETB : 21/07/2021.

We sincerely apologize for the inconvenience caused by these contingencies.

Please contact your local sales office should you have any further questions.

**Kind Regards**

**DAL Agency Team**

***Please note that this Notice is from our Principals and we distribute same as their representative.***
