SAECS Schedule**

Dear Valued Client,

We continue experiencing substantial congestion and weather delays of our SAECS vessels in all ports of our rotation.

The current critical situation unfortunately requires the SAECS schedule to structurally suspend double port calls with immediate effect of the various vessels and voyages. All ports of the current rotation continue to be offered whereby some lanes have impacted transit times. Please check our schedules for more details of the implementation at www.dal.biz.

Adjusted rotation:

Rotterdam - London Gateway - Bremerhaven - Algeciras (APMT and TTIA) - Coega - Durban - Coega (tbc) - Cape Town - Rotterdam

Despite all the prevailing problems and resulting additional costs we will continue to do our utmost to ensure a reliable product both from Europe and South Africa and avoid any necessary additional measures.

Thanking you for your understanding and continued support.

Please contact your DAL representative with any questions that you may have.

Kind Regards,
DAL Deutsche Afrika-Linien GmbH & Co. KG
